Safety Data Sheet

SDS created: 15-6-2021

1 - Identification of substance and a Axon catalogue ID 1200 Product name CNQX IUPAC name 7-Nitro-2,3-dioxo-1,2,3,4- tetrahydroquinoxaline-6-carbonitrile	CAS number 115066-14-3 Batch no. 2 Application AMPA/Kainate antagonist	Manufacturer's n. Axon Medchem I Street address Biotech Center UN Postal Code 9713 GZ Province Groningen	BV	Emergency Telephone number +31 (0)50 311 8007 Manufacturer's fax number +31 (0)50 3600390 Manufacturer's email address info@axonmedchem.com Manufacturer's website http://www.axonmedchem.com
2 - Hazards identification Route of entry Eye contact, Inhalation, Digestion Symptoms of Exposure	membranes, upper re	halation, ingestion c	nd/or skin. The toxicolog	ption. May cause irritation to eye, mucous
No data available 3 - Information on ingredients	been fully tested. For	research purposes or	nly.	
Hazardous ingredient	CAS number 115066-14-3	Concentration 99.4%		LD-50 of ingredient No data available
4 - First Aid Measures Skin contact Wash with copious amounts of water for at least 15 minutes. Remove contaminated clothing.	<i>Eye contact</i> Rinse with copious amounts of water for at least 15 minutes as a precaution.	Inhalation Transfer victim to an un-effected area and monitor breathing. If breathing becomes difficult administer oxygen. If breathing stops give artificial respiration.		Ingestion Rinse mouth out with copious amounts o water, contact a physician.
5 - Fire Fighting Measures Fire fighting instructions Use extinguishing media appropriate to the surrounding fire conditions. Wear protective clothing to prevent contact with skin, eyes, and respiratory system.	<i>Flamable</i> No data available	breathing stops give artificial respiration. Flashpoint (°C) No data available		Hazardous combustion products May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2) hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.
7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply.	nd clothing. Wear appropriate protective clot			ent with alcohol. Dispose of contaminated
7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro-	nd clothing. Wear appropriate protective clot		and/or prolonged expos	· · · · · · · · · · · · · · · · · · ·
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. otection Protection of hands/skin Chemical resistant gloves and lab coat	hing. Avoid repeated	and/or prolonged expos	ure. Use in a chemical fume hood, with a
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under a rexposure Control / Personal Processors Exposure limits No data available 9 - Physical and chemical properties 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. otection Protection of hands/skin Chemical resistant gloves and lab coat	hing. Avoid repeated	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Processoure limits No data available 9 - Physical and chemical propertie Batch molecular formula C9H4N4O4 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. otection Protection of hands/skin Chemical resistant gloves and lab coat s Appearance Light-yellow solid	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4%	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C3H4N4O4 Batch MW 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Detection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Melting point	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Processor Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C9H4N4O4 Batch MW 232.15 10 - Stability and reactivity Stability Stable under normal handling conditions. 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. otection Protection of hands/skin Chemical resistant gloves and lab coat s Appearance Light-yellow solid	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Processoure limits No data available 9 - Physical and chemical properties Batch molecular formula CSH4N4O4 Batch MW 232.15 10 - Stability and reactivity Stable under normal handling conditions. 11 - Toxicological information 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Difection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Metting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a oxidizing agents.	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Storage requirements Store im a properly sealed container under 8 - Exposure Control / Personal Processor elimits No data available 9 - Physical and chemical propertie Batch molecular formula C9H4N4O4 Batch MW 232.15 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information Toxicity 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Detection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Melting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCl), nitrogen oxide upon thermal decomposition. Carcinogenicity	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under 3 - Exposure Control / Personal Processoure limits No data available 3 - Physical and chemical properties Batch molecular formula CSH4N404 Batch MW CStability and reactivity Stable under normal handling conditions. 11 - Toxicological information Toxicty No data available 12 - Ecological information Freat as potentially toxic. Runoff from fire conditions 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Difection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Metting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a oxidizing agents. Mutagenicity No data available	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Storage requirements Store in a properly sealed container under 3 - Exposure Control / Personal Processors Store in a valiable 9 - Physical and chemical properties Batch molecular formula C9H4N4O4 Batch MW 232.15 10 - Stability and reactivity Stability Stabile under normal handling conditions. 11 - Toxicological information Troxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire of a spotentially toxic. 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Melting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity No data available	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a oxidizing agents. Mutagenicity No data available on.	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity
 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a ndependent air supply. Storage requirements Store in a properly sealed container under B - Exposure Control / Personal Procession Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C3H4N404 Batch MW 232.15 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire of 13 - Disposal considerations Treat as potentially toxic. Dispose in accord 14 - Transport Information (US) DOT shipping name 	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Melting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity No data available control or dilution with water may cause pollution dance with local, state, and federal regulations IATA class	hing. Avoid repeated Protection of eye Appropriate safety Chemical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a oxidizing agents. Mutagenicity No data available on. 3. Applicable HS cla	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity No data available Transportation (Land/Sea/Air)
independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C9H4N4O4 Batch MW 232.15 10 - Stability and reactivity Stability Stabile under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire of 13 - Disposal considerations	nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. btection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Light-yellow solid Melting point >350 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity No data available control or dilution with water may cause pollution	hing. Avoid repeated Protection of eye Appropriate safety Optical purity 99.4% Optical purity (ee N.A. Conditions and n Protect from light a oxidizing agents. Mutagenicity No data available on. S.	and/or prolonged expos	ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity No data available

16 - Other information

The above information is believed to be accurate and represents the best information currently available to us, but does not purport to be complete. The absence of warning must not, under any circumstance, be taken to mean that no hazard exists. For research use only by trained personnel. CAUTION: SUBSTANCE NOT FULLY TESTED
