5 - Fire Fighting Measures			
Fire fighting instructions	Flamable	Flashpoint (°C)	Hazardous combustion products
Use extinguishing media appropriate to	No data available	No data available	May emit toxic gasses like carbon
the surrounding fire conditions. Wear			monoxide (CO), carbon dioxide (CO2),
protective clothing to prevent contact			hydrochloric acid (HCl), nitrogen oxide
with skin,eyes, and respiratory system. 6 - Accidental Release Measures			upon thermal decomposition.
Leak and spill procedures			
	um or sweep up dry material and dispose i	n an appropriate container as described und	er Disposal Conditions Avoid raising dust
Wear appropriate protective clothing. Vacu		n an appropriate container as described und e and decontaminate surfaces and equipme	
Wear appropriate protective clothing. Vacu		n an appropriate container as described und e and decontaminate surfaces and equipme	
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu			
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13.			
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar	uid-binding material. After removal, ventilate		ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply.	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipme	ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipme	ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipme	ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection	e and decontaminate surfaces and equipme	ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat	e and decontaminate surfaces and equipme	ent with alcohol. Dispose of contaminated
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C9H7CI2N5 Batch MW 256.09	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9%	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C9H7Cl2N5 Batch MW 256.09 10 - Stability and reactivity	uid-binding material. After removal, ventilate and clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 217.9 - 218.4 °C	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A.	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro <i>Exposure limits</i> No data available 9 - Physical and chemical propertie <i>Batch molecular formula</i> C9H7CI2N5 <i>Batch MW</i> 256.09 10 - Stability and reactivity <i>Stability</i>	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 217.9 - 218.4 °C Reactivity	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C9H7Cl2N5 Batch MW 256.09 10 - Stability and reactivity	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 217.9 - 218.4 °C Reactivity May emit toxic gasses like carbon	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro <i>Exposure limits</i> No data available 9 - Physical and chemical propertie <i>Batch molecular formula</i> C9H7CI2N5 <i>Batch MW</i> 256.09 10 - Stability and reactivity <i>Stability</i>	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 217.9 - 218.4 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C9H7CI2N5 Batch MW 256.09 10 - Stability and reactivity Stability	uid-binding material. After removal, ventilate and clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 217.9 - 218.4 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro <i>Exposure limits</i> No data available 9 - Physical and chemical propertie <i>Batch molecular formula</i> C9H7CI2N5 <i>Batch MW</i> 256.09 10 - Stability and reactivity Stabile under normal handling conditions.	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 217.9 - 218.4 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong	nt with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro <i>Exposure limits</i> No data available 9 - Physical and chemical propertie Batch molecular formula C9H7CI2N5 Batch MW 256.09 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 217.9 - 218.4 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	e and decontaminate surfaces and equipme hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.9% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents.	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0
Wear appropriate protective clothing. Vacu. Absorb solutions with finely-powdered liqu materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro <i>Exposure limits</i> No data available 9 - Physical and chemical propertie <i>Batch molecular formula</i> C9H7CI2N5 <i>Batch MW</i> 256.09 10 - Stability and reactivity Stabile under normal handling conditions.	uid-binding material.
