Safety Data Sheet

SDS created: 8-2-2019

1 - Identification of substance and	manufacturer			
Axon catalogue ID	CAS number	Manufacturer's name		Emergency Telephone number
1461	288383-20-0	Axon Medchem BV		+31 (0)50 311 8007
Product name	Batch no.	Street address		Manufacturer's fax number
Cediranib	1	Biotech Center UMCG, Hanz	zeplein 1	+31 (0)50 3600390
IUPAC name	Application	Postal Code City		Manufacturer's email address
4-(4-Fluoro-2-methyl-1H-indol-5-yloxy)-6-	Potent inhibitor of vascular endothelial	9713 GZ Groning		info@axonmedchem.com
methoxy-7-(3-(pyrrolidin-1-	growth factor (VEGF) receptor tyrosine		'y of origin therlands	Manufacturer's website
yl)propoxy)quinazoline	kinases.	Groningen The Ne	linenanus	http://www.axonmedchem.com
2 - Hazards identification				
Route of entry	GHS Pictogram Potential health effe	cts		
Eye contact, Inhalation, Digestion				ption. May cause irritation to eye, mucous
Symptoms of Exposure			The toxicolog	ical properties of this compound have not
No data available 3 - Information on ingredients	been fully tested. For	research purposes only.		
Hazardous ingredient	CAS number	Concentration		LD-50 of ingredient
Cediranib	288383-20-0	99.6%		No data available
4 - First Aid Measures	200000 20 0	00.070		
Skin contact	Eye contact	Inhalation		Ingestion
Wash with copious amounts of water for	Rinse with copious amounts of water for	Transfer victim to an un-e		Rinse mouth out with copious amounts of
at least 15 minutes. Remove	at least 15 minutes as a precaution.	and monitor breathing.		water, contact a physician.
contaminated clothing.		becomes difficult administe breathing stops give artificial		
5 - Fire Fighting Measures		breathing stops give artilicial	respiration.	
Fire fighting instructions	Flamable	Flashpoint (°C)		Hazardous combustion products
Use extinguishing media appropriate to	No data available	No data available		May emit toxic gasses like carbon
the surrounding fire conditions. Wear				monoxide (CO), carbon dioxide (CO2),
protective clothing to prevent contact				hydrochloric acid (HCI), nitrogen oxide
with skin,eyes, and respiratory system. 6 - Accidental Release Measures				upon thermal decomposition.
V Accidental herease measures				
Leak and snill procedures				
Leak and spill procedures	um or sweep up dry material and dispose i	n an appropriate container as	described und	er Disposal Conditions Avoid raising dust
Wear appropriate protective clothing. Vacu	uum or sweep up dry material and dispose i uid-binding material. After removal, ventilate			
Wear appropriate protective clothing. Vacu Absorb solutions with finely-powdered liq materials according to section 13.	uum or sweep up dry material and dispose i uid-binding material. After removal, ventilat			
Wear appropriate protective clothing. Vac Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage				
Wear appropriate protective clothing. Vac Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment	uid-binding material. After removal, ventilat	e and decontaminate surfaces	s and equipme	ent with alcohol. Dispose of contaminated

Dispose of contaminated ure. Use in a chemical fume hood, with an
Wear appropriate protective clothing. Vac Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro- Exposure limits	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat	e and decontaminate surfaces hing. Avoid repeated and/or pr Protection of eyes	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under i 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance	e and decontaminate surfaces ning. Avoid repeated and/or pro Protection of eyes Appropriate safety glasses Chemical purity	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C25H27FN4O3	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid	e and decontaminate surfaces ning. Avoid repeated and/or pro Protection of eyes Appropriate safety glasses Chemical purity 99.6%	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C25H27FN4O3 Batch MW	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. itection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point	e and decontaminate surfaces hing. Avoid repeated and/or pro Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee)	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vac Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid	e and decontaminate surfaces ning. Avoid repeated and/or pro Protection of eyes Appropriate safety glasses Chemical purity 99.6%	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point 132 °C (decomp)	e and decontaminate surfaces ning. Avoid repeated and/or pro <i>Protection of eyes</i> Appropriate safety glasses <i>Chemical purity</i> 99.6% <i>Optical purity (ee)</i> N.A.	s and equipme	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity Stability	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point 132 °C (decomp) Reactivity	e and decontaminate surfaces hing. Avoid repeated and/or pro- Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) N.A. Conditions and materials t	s and equipme olonged expos	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point 132 °C (decomp) Reactivity May emit toxic gasses like carbon	e and decontaminate surfaces hing. Avoid repeated and/or pro- Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) N.A. Conditions and materials t Protect from light and heat. A	s and equipme olonged expos	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vact Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity Stability	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point 132 °C (decomp) Reactivity	e and decontaminate surfaces hing. Avoid repeated and/or pro- Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) N.A. Conditions and materials t	s and equipme olonged expos	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vaci Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity Stable under normal handling conditions.	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Metting point 132 °C (decomp) Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	e and decontaminate surfaces hing. Avoid repeated and/or pro- Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) N.A. Conditions and materials t Protect from light and heat. A	s and equipme olonged expos	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Wear appropriate protective clothing. Vaci Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity Stability Stable under normal handling conditions.	uid-binding material. After removal, ventilat nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Off-white solid Melting point 132 °C (decomp) Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	e and decontaminate surfaces hing. Avoid repeated and/or pro- Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) N.A. Conditions and materials t Protect from light and heat. A oxidizing agents.	s and equipme olonged expos	ent with alcohol. Dispose of contaminated ure. Use in a chemical fume hood, with an Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0
Wear appropriate protective clothing. Vaci Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C25H27FN4O3 Batch MW 450.51 10 - Stability and reactivity Stability Stable under normal handling conditions.	uid-binding material.
