Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment	d-binding material. After removal, ventilate and	d decontaminate surfaces and equipment with	alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a		d decontaminate surfaces and equipment with	alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply.	d-binding material. After removal, ventilate and	d decontaminate surfaces and equipment with	alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements	d-binding material. After removal, ventilate and	d decontaminate surfaces and equipment with	alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth	d decontaminate surfaces and equipment with	alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. <b>7 - Handling and Storage</b> <i>Handling procedures and equipment</i> Avoid inhalation, contact with eyes, skin a independent air supply. <i>Storage requirements</i> Store in a properly sealed container under <b>8 - Exposure Control / Personal Pro</b>	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. otection	d decontaminate surfaces and equipment with	a alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. <b>7 - Handling and Storage</b> <i>Handling procedures and equipment</i> Avoid inhalation, contact with eyes, skin a independent air supply. <i>Storage requirements</i> Store in a properly sealed container under <b>8 - Exposure Control / Personal Pro</b> <i>Exposure limits</i>	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. stection Protection of hands/skin	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under i 8 - Exposure Control / Personal Pro Exposure limits No data available	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Netection</b> <i>Protection of hands/skin</i> Chemical resistant gloves and lab coat	d decontaminate surfaces and equipment with	a alcohol. Dispose of contaminated material
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Diffection</b> <b>Protection of hands/skin</b> Chemical resistant gloves and lab coat	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos <b>Protection of eyes</b> Appropriate safety glasses	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under i 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Stection</b> <i>Protection of hands/skin</i> Chemical resistant gloves and lab coat <b>S</b> <i>Appearance</i>	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Stection</b> Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6%	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C21H24N4O3S.0.25H2O Batch MW	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Ditection</b> <b>Protection of hands/skin</b> Chemical resistant gloves and lab coat <b>S</b> <b>Appearance</b> Pale-yellow solid <b>Melting point</b>	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee)	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under : 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Stection</b> Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6%	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4035.0.25H20 Batch MW 417.01 10 - Stability and reactivity	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Detection</b> Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid Melting point 188.5 - 189.7 °C	d decontaminate surfaces and equipment with ning. Avoid repeated and/or prolonged expos <b>Protection of eyes</b> Appropriate safety glasses <b>Chemical purity</b> 99.6% <b>Optical purity (ee)</b> 0.P.	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stability	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Netection</b> <b>Protection of hands/skin</b> Chemical resistant gloves and lab coat <b>S</b> <b>Appearance</b> Pale-yellow solid <b>Melting point</b> 188.5 - 189.7 °C <b>Reactivity</b>	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) 0.p. Conditions and materials to avoid	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4035.0.25H20 Batch MW 417.01 10 - Stability and reactivity	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Stection</b> Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid Melting point 188.5 - 189.7 °C Reactivity May emit toxic gasses like carbon	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) o.p. Conditions and materials to avoid Protect from light and heat. Avoid strong	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stability	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. Stection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid Melting point 188.5 - 189.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) 0.p. Conditions and materials to avoid	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stability	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Detection</b> Protection of hands/skin Chemical resistant gloves and lab coat <b>S</b> Appearance Pale-yellow solid Melting point 188.5 - 189.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) o.p. Conditions and materials to avoid Protect from light and heat. Avoid strong	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under : 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stabile under normal handling conditions.	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. Stection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance Pale-yellow solid Melting point 188.5 - 189.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) o.p. Conditions and materials to avoid Protect from light and heat. Avoid strong	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b>
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under : 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stabile under normal handling conditions. 11 - Toxicological information	d-binding material. After removal, ventilate and ind clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Protection</b> <b>Protection of hands/skin</b> Chemical resistant gloves and lab coat <b>S</b> <b>Appearance</b> Pale-yellow solid <b>Metting point</b> 188.5 - 189.7 °C <b>Reactivity</b> May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) 0.p. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents.	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a <b>Protection of respiratory system</b> Handle in fume hood. Prevent inhalation <b>Solubility in water (mg/mL)</b> 0.0
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under : 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stabile under normal handling conditions. 11 - Toxicological information Toxicity	d-binding material. After removal, ventilate and nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. <b>Protection of hands/skin</b> Chemical resistant gloves and lab coat <b>S</b> <b>Appearance</b> Pale-yellow solid <b>Melting point</b> 188.5 - 189.7 °C <b>Reactivity</b> May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. <b>Carcinogenicity</b>	d decontaminate surfaces and equipment with hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity 99.6% Optical purity (ee) 0.p. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity	a alcohol. Dispose of contaminated material sure. Use in a chemical fume hood, with a Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity
Absorb solutions with finely-powdered liqui according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical properties Batch molecular formula C21H24N4O3S.0.25H2O Batch MW 417.01 10 - Stability and reactivity Stability Stabile under normal handling conditions.	d-binding material.
