6 - Accidental Release Measures			
Leak and spill procedures			
Wear appropriate protective clothing Vacu	um or sweep up dry material and dispose i	n an appropriate container as described und	ler Disposal Conditions Avoid raising dust
		n an appropriate container as described und	
Absorb solutions with finely-powdered liq		n an appropriate container as described und e and decontaminate surfaces and equipme	
Absorb solutions with finely-powdered liq materials according to section 13.			
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage			
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin au	uid-binding material. After removal, ventilate		ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply.	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin a independent air supply. Storage requirements	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin al independent air supply. Storage requirements Store in a properly sealed container under l	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin al independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro-	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label.	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin au independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits	uid-binding material. After removal, ventilate	e and decontaminate surfaces and equipm	ent with alcohol. Dispose of contaminated
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin al independent air supply. Storage requirements Store in a properly sealed container under l	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro Exposure limits No data available	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat s Appearance White solid	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0%	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin an independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clot the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expos Protection of eyes Appropriate safety glasses Chemical purity	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin an independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clott the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee)	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clott the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee)	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A.	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stability	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clott the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under 1 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stability	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clott the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2),	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stable under normal handling conditions.	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective clott the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin and independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stabile under normal handling conditions. 11 - Toxicological information	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CC2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents.	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin and independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stable under normal handling conditions. 11 - Toxicological information	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCl), nitrogen oxide	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available	uid-binding material. After removal, ventilate nd clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CC2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents.	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information	uid-binding material. After removal, ventilate and clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Metting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity No data available	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity No data available	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin and independent air supply. Storage requirements Store in a properly sealed container under to 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stabile under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire c	uid-binding material. After removal, ventilate and clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity No data available	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under t 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity No data available on. 3. Applicable HS class 2942.00.0000 CAS number	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity No data available Transportation (Land/Sea/Air)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin ar independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stability Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire c 13 - Disposal considerations Treat as potentially toxic. Dispose in accord 14 - Transport Information (US) DOT shipping name No data available 15 - Regulatory Information Hazardous ingredient	uid-binding material. After removal, ventilate Ind clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition. Carcinogenicity No data available ontrol or dilution with water may cause pollution tance with local, state, and federal regulations IATA class	e and decontaminate surfaces and equipment hing. Avoid repeated and/or prolonged expose Protection of eyes Appropriate safety glasses Chemical purity 100.0% Optical purity (ee) N.A. Conditions and materials to avoid Protect from light and heat. Avoid strong oxidizing agents. Mutagenicity No data available on. S. Applicable HS class 2942.00.0000	ent with alcohol. Dispose of contaminated sure. Use in a chemical fume hood, with ar Protection of respiratory system Handle in fume hood. Prevent inhalation Solubility in water (mg/mL) 0.0 Teratogenicity No data available Transportation (Land/Sea/Air)
Absorb solutions with finely-powdered liq materials according to section 13. 7 - Handling and Storage Handling procedures and equipment Avoid inhalation, contact with eyes, skin an independent air supply. Storage requirements Store in a properly sealed container under the 8 - Exposure Control / Personal Pro- Exposure limits No data available 9 - Physical and chemical propertie Batch molecular formula C23H30FN3 Batch MW 367.50 10 - Stability and reactivity Stable under normal handling conditions. 11 - Toxicological information Toxicity No data available 12 - Ecological information Treat as potentially toxic. Runoff from fire c 13 - Disposal considerations Treat as potentially toxic. Runoff from fire c 14 - Transport Information Ireat as potentially toxic. Dispose in accord 14 - Transport Information Hazardous ingredient Blonanserin	uid-binding material. After removal, ventilate Ind clothing. Wear appropriate protective cloth the storage conditions indicated on the label. tection Protection of hands/skin Chemical resistant gloves and lab coat S Appearance White solid Melting point 124.0 - 126.7 °C Reactivity May emit toxic gasses like carbon monoxide (CO), carbon dioxide (CO2), hydrochloric acid (HCI), nitrogen oxide upon thermal decomposition.
